

## § 648.8

sector manager, and monitoring contractor, as instructed by the Regional Administrator.

[61 FR 34968, July 3, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 648.7, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

### § 648.8 Vessel identification.

(a) *Vessel name and official number.* Each fishing vessel subject to this part and over 25 ft (7.6 m) in registered length must:

(1) Affix permanently its name on the port and starboard sides of the bow and, if possible, on its stern.

(2) Display its official number on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck so as to be clearly visible from enforcement vessels and aircraft. The official number is the USCG documentation number or the vessel's state registration number for vessels not required to be documented under title 46 U.S.C.

(b) *Numerals.* Except as provided in paragraph (d) of this section, the official number must be displayed in block arabic numerals in contrasting color at least 18 inches (45.7 cm) in height for fishing vessels over 65 ft (19.8 m) in registered length, and at least 10 inches (25.4 cm) in height for all other vessels over 25 ft (7.6 m) in registered length. The registered length of a vessel, for purposes of this section, is that registered length set forth in USCG or state records.

(c) *Duties of owner.* The owner of each vessel subject to this part shall ensure that—

(1) The vessel's name and official number are kept clearly legible and in good repair.

(2) No part of the vessel, its rigging, its fishing gear, or any other object obstructs the view of the official number from any enforcement vessel or aircraft.

(d) *Non-permanent marking.* Vessels carrying recreational fishing parties on a per capita basis or by charter must use markings that meet the above requirements, except for the requirement that they be affixed permanently to the vessel. The non-permanent mark-

## 50 CFR Ch. VI (10–1–10 Edition)

ings must be displayed in conformity with the above requirements.

(e) *New Jersey surf clam or ocean quahog vessels.* Instead of complying with paragraph (a) of this section, surf clam or ocean quahog vessels licensed under New Jersey law may use the appropriate vessel identification markings established by that state.

### § 648.9 VMS vendor and unit requirements.

(a) *Approval.* The type approval requirements for VMS MTUs and MCSPs for the Northeast Region are those as published by the NMFS Office of Law Enforcement in the FEDERAL REGISTER, and are available upon request. Both the minimum national standards and any established regional standards must be met in order to receive approval for use in the Northeast Region. The Regional Administrator shall approve all MTUs and MCSPs operating in the Northeast Region.

(b) *Maintenance.* Once approved, VMS units must maintain the minimum standards for which they were approved in the type approval requirements. Any changes made to the original submission for approval of an MTU or MCSP by NMFS must follow the procedures outlined in the type approval requirements.

(c) *Notification.* A list of approved VMS vendors will be published on the Northeast Regional Office Web site and in each proposed and final rule for implementing or modifying VMS requirements for specific fisheries.

(d) *Revocations.* In the event that a VMS vendor is deleted from the list of approved vendors, vessel owners that purchased a VMS unit from that vendor to meet Northeast requirements will be considered authorized to use that unit for the remainder of the unit's service life.

[74 FR 20530, May 4, 2009]

### § 648.10 VMS and DAS requirements for vessel owners/operators.

(a) *VMS Demarcation Line.* The VMS Demarcation Line is defined by straight lines connecting the following coordinates in the order stated (a copy of a map showing the line is available from the Regional Administrator upon request):
